

HERBAL TEAS

Researched and developed by the Siddhalepa Ayurveda Hospital (Pvt) Ltd. Siddhalepa Herbal Teas condense the healing, rejuvenating powers of nature into liquid form. Our all-natural, organically grown teas feature natural herbs, roots and leaves which are steeped in ancient Ayurvedic traditions that have thrived for 5,000 years.

Each tea is formulated to address a specific function and some have a strong distinct taste. We do not weaken our formulae to make them more palatable, as it reduces their healing powers.

Siddhalepa Ayurveda Teas are caffeine free and contain no preservatives or sugar. To assure product freshness and keep them tamper proof, each tea bag has been individually foil wrapped and sealed.
